

Efficiency at the Click of a Key.

Ergos Software, Inc.

Take A Closer Look At Your Business.

Imagine that you have a new employee whose sole purpose within your company was to track everything that you need for your business. This employee will track every department within your business, and every aspect of performance from technician sales to customer satisfaction. This employee is equipped with all industry specific calculations and he's done this job for many years with other service companies just like yours... He guarantees you that he will have individual and shop totals for every one of the items on your (the business owners) list, posted by the end of each day. In addition, he is going to store all of your data so that you can simply reference back to it, for any specific date range and for any specific employee, this guy has a system that works seamlessly & he's confident....

Your new imaginary employee can only deliver what he has promised to you by the end of each day for one reason;

He has Fastrax - a complete Service Industry Solution created by Ergos Software, Inc.

Fastrax is a fully integrated software package designed to give you data, calculations & answers for your business, Fast. Fastrax is service industry focused and includes capabilities to aid in tracking all industry calculations. From 'employee efficiency' & 'bonus' calculations to 'task sales' & 'preventative maintenance' tracking; Fastrax tracks all of the important data you need to run your service company. With more than 175 company reports to aid in tracking and calculating everything you need to run your business right.

At Ergos Software, Inc. we believe that a great software package should automatically track everything you need for your business. Just like a new employee, new software should alleviate work load and allow you & your staff members to get more done in your day. We understand how to track your business and we've been doing it for contractors just like you for more than 25 years. We install a complete software system to structure your daily business procedures & our system produces complete tracking and calculations for your business. With our software package you have more than 175 reports available to show you the performance of every aspect of your business for any time period you choose.
